Surprise Signal Tests-Efficiency

Trainmen of the Pacific Electric railway maintained during 1922 a record of safety rule observance unsurpassed by employees of any electric railway in the United States, according to records compiled at the local railway's headquarters. During the year a total of 35,682 "surprise signal tests" were made, of which 99.16% were observed and proper action taken.

These tests are made with great frequency at various points on Pacific Electric lines for the purpose of determining whether trainmen are observing safety rules governing safe operation of trains. Without warning a train crew is confronted with or hears a safety signal in the form of a fuse, torpedo, flag, lantern, switch light, or interlocking signal. Tests checking the speed over intersections and within restricted speed limits are also made. The action taken by crew when test is made is noted and recorded, and if according to instructions, all is well. In the event of failure to comply with existing instructions, the crew member who is delinquent in his duty is disciplined by demerits against his record, or if the failure indicates gross negligence, dismissal may follow.

The tests made by the Pacific Electric on its trainmen, numbering more than 2,000, are similar to those made on railroads throughout the United States and have been made by the local company with increasing regularity since August, 1911.

Prolific Growth of Inoculated Seed

A company of San Francisco has been reorganized under the direction of Dudley Moulton, horticultural commissioner of San Francisco, and now prepares only nitrogen soil bacteria in pure culture to inoculate the seed of alfalfa, peas, beans, clovers, vetches, and other legumes.

The use of inoculated leguminous plants as cover crops in orchards, and in crop rotations has become the most important method of replacing nitrogen and humus and of bringing back worn out lands, and is recognized as the most powerful force in agriculture to maintain the fertility of soils.

Inoculated alfalfa seed has demonstrated that it will produce a more uniform stand and the plants are stimulated to a more rapid growth from the start. Inoculated beans have produced larger plants with fuller and heavier pods. The interplanting of inoculated legumes with corn, grains, cotton, and other non-leguminous plants is the most successful way to produce bumper crops at small cost, and at the same time keep the soil in good condition. The nitrogen-bearing roots of the legumes intermingle with the roots of the other plants and stimulate and supply them with this most necessary plant food.

FUNERAL SERVICES FOR MURRAY QUIGLEY HELD LAST MONDAY

Funeral services were held Monday afternoon, February 16, for Murray Quigley, 15-year-old son of Mr. and Mrs. Edward Quigley, of 1003 North Arlington avenue. His death occurred last week after an illness of less than a week.

Mr. and Mrs. L. E. Stoner, 1836 Gramercy avenue, motored to Redondo Sunday.

Mr. and Mrs. Albert Price were business visitors to Los Angeles Monday.

Hurum Reeva was in San Francisco, from Monday until Thursday attending the Hardware convention.

W. C. Close of the Torrance Feed and Fuel company, has been ill for the past few days.

Harry Kemp of Los Angeles passed Sunday with his mother, Mrs. Albert Price, of 1904 Gramercy avenue.

Mr. and Mrs. C. J. Liedorf of the City Cash Market motored to Long Beach Sunday to be the guests of Mrs. Liedorf's sister.

Louis Doughty, a well-known glass worker, father of Richard and Louis Doughty, fishener, employed at the Torrance factory, passed away Wednesday, February 14, of heart trouble at Stockton.

Mr. and Mrs. F. M. Compton and family of Hermosa Beach have moved to Torrance. They are residing in the Isenstein flats on Portola. Mr. Compton is an employe of the Reeve Hardware company.

MAMMOTH PICNIC FOR MICHIGANDERS

The Michigan Association of Southern California has been holding picnic reunions for more than twenty years. The Wolverines are all hereby notified that the annual picnic will be held all day Saturday (not on Sunday), March 17, in Sycamore Grove Park, Los Angeles. Every Michigander in all the Southland is invited, and our thousands of tourists will meet friends.

TORRANCE NOTES

Mrs. C. M. Hunn of this city is in San Bernardino Thursday and Friday of this week attending the orange show.

Mr. and Mrs. F. L. Parks and mother, Mrs. Zada Hastie, were dinner guests of Mr. and Mrs. A. B. Shriner, of Hammerton, Monday evening.

Mr. and Mrs. R. J. Tomkins and sister, Mrs. O. E. Gregory attended the performance at Orpheum theater, Los Angeles, Monday evening, celebrating the Tomkins wedding anniversary.

C. M. Root, of the Selby & Root company, which purchased 35 acres of land northeast of Torrance recently, held a family reunion and picnic on their newly acquired property Saturday. Among the guests were Mr. Rhoades and family, C. M. Root, Mr. and Mrs. Dyer and family and sister.
